### **ALASKA BROWN & BLACK BEAR COMBO**

WHO: D & L Outfitters

WHAT: Brown & Black Bear Combo Hunt

WHERE: Game Management Unit 7, Alaska

WHEN: Spring or Fall, 2014 or 2015,

TERMS: This is a 7 day donation to hunt both Brown and Black Bear in beautiful rugged Alaska. The outfitter will have spent considerable time flying the area to scout for Brown Bear prior to your arrival. Also, he will have active bait sites set up for Black Bear. Usually, baiting is most productive in the spring with spot and stalk being more productive in the fall. In Alaska it is legal to harvest a Brown Bear feeding at a Black Bear bait site. The bears are in GMU #7 in great numbers, and Alaskan fish and wildlife want 68 Brownies taken out of the area this year. They are starting to over populate and become too aggressive. Should game populations or hunting conditions change, the outfitter may guide you in another GMU to improve your chances of a successful hunt. A fly fee could pertain depending on the flight distance to the better bear populations. Depending on where the bears are, you could be sleeping in a warm comfortable cabin, or it may require spotting the bear from the air, landing in a remote area to sleep in a tent, and then legally hunting the bear the next day. Either way, this will be the hunt of a lifetime. The outfitter will make sure you sleep dry and have plenty of hot food. The brown bears come in silver tip, dark brown, blonde, and blond with dark brown boots. You can add other legal species to your hunt for a trophy fee. Why not add a wolf to your adventure? This is a 2x1 hunt so why not bring another hunter along with you. The other hunter will pay \$24,500 for the Brown & Black Bear combo hunt. You need to purchase a hunting license for \$85 and a brown bear tag for \$225 (license and tag fees subject to change). You do not need to buy a wolf tag. This will allow you to take one brown bear, one black bear, and up to five wolves. There is a \$1000 trophy fee on each wolf. We appreciate this repeat donation from Frank Danford and D&L Outfitters. Frank will be happy to answer all your questions at his booth. The proceeds from this hunt will fund Wounded Warrior projects.

### **MAGNUM RESEARCH, INC. 45/70 BIG FRAME REVOLVER**

MRI's Big Frame Revolver is truly the biggest, finest revolver on the market today. Entirely manufactured in the US, it is designed as a magnum from the ground up. The BFR is all stainless and has a cut rifled 10" barrel that delivers unmatched accuracy with lead or jacketed bullets. The BFR is the most powerful production single action revolver made you can take everything from grouse to grizzly. BFR .45/70 recoils less than the .44 Magnum with a 4 5/8-inch barrel. The advantages of the .45/70 over the .454 Casull are that the .45/70 is an extremely potent hunting cartridge that is loaded at EXTREMELY low pressures. The Casull is loaded at over 50,000 PSI, and the .45/70 is loaded under 25,000 PSI. The .45/70 can be hand-loaded to exceed .454 Casull velocity and still be under 30,000 PSI! There is much less recoil and half the working pressure which means the revolver will shoot better and last longer. Ammo is also a lot less expensive and more readily available. The long .45/70 cartridge does not mean more recoil—it means far less pressure because the powder has room to expand, giving equal performance with less pressure.

## **CANADIAN WOLF HUNT FOR TWO HUNTERS**

WHO: Kapriver Retrievers & Outfitters

WHAT: Wolf Hunt for Two Hunters

WHERE: Kapuskasing, Ontario

WHEN: Dec. 2014-Mar. 2015

TERMS: This donation is for two lucky hunters to hunt timber wolves for six days with Kapriver Outfitters in Ontario, Canada. Timber wolves are smart, extremely shy, and difficult to hunt at the best of times. Unlike bears, sitting over a bait site expecting to shoot a wolf is next to impossible. When they circle the site before coming in, they smell, see, or hear you. Dr. Peter Martin has developed a unique hunting system over the last 20 years that gives hunters the edge. Located in the far reaches of Northern Ontario, he has spent years scouting thousands of miles of bush country in pursuit of the "Ghost of the North". This is a truly unique hunting experience that usually takes place in the winter months of December through March when the snow is deepest. Peter may have 60-100 bait sites widely scattered throughout the region in some of the finest wolf country in Northern Ontario. His baits are typically frozen livestock cut in two with a chainsaw. A typical day begins early by checking bait sites by 4x4 pick up and snow machines. If it has been hit, your guide may try to get the animal to come in using a predator call. If that fails, he will run the perimeter of that site and if the wolf or wolves are bedded down within the block, he will place his hunters in strategic positions to await the "Drive". A tracker will then track the animal on snowshoes, find his bed, and the chase is on. This is when the real action begins! The wolves may try to elude the tracker, but eventually will get frustrated and break towards the hunters. The anticipation of being on stand and waiting for the most elusive of game animals to appear is truly a rush. All hunters must provide a current hunting license in order to obtain a non-resident license. Hunter is responsible for a \$400 license. You will stay in Peter's very comfortable 5,000+ square foot, eight bedroom home. Meals are prepared by his wife, Terry. You can expect appetizers, two or three main entrees, four or five side dishes, and at least two desserts. You will normally have great wine with your meal. You can drive to Kapuskasing or fly to Timmons, ON. Pick up in Timmins is \$250, or you can rent a car and drive. There is a \$100 hide prep fee.
