### **CUSTOM IN-LINE MUZZLELOADER**

WHO: Ultimate Firearms, Inc.

WHAT: Custom .50 Caliber In-Line Muzzleloader

TERMS: Ultimate Firearms, Inc. makes the BP Express, the world's finest custom muzzleloader. With velocities approaching 2400 feet per second with a 300 grain bullet, the ability to burn up to 200 grains of Pyrodex pellets, and an easy two minute cleanup, this is truly a scientifically engineered, long range muzzleloader that harbors tremendous accuracy and power. This muzzleloader has documented kills on big game in excess of 500 yards. The BP Express has fired five shot groups of one half inch at 100 yards. This rifle has been used with great success on Brown Bears in Alaska to Cape Buffalo in South Africa. It is designed for the discriminating hunter looking to maximize his shooting potential and hunting effectiveness. It has been tested to over 125,000 psi breech pressures. That amount would cause failure in most any other muzzleloader. The rifle has a lugged, locking bolt with two blow ports to prevent primer blowback. Due to the patented ignition system, there are no gasses expelled through the breech plug. This muzzleloader is primed with a unique, patented, .45 caliber brass casing with a magnum rifle primer which is ten times hotter than a .209 primer. No more having to load those tiny caps or .209s, simply lay the .45 casing in the chamber and rack it forward. The casing surrounds the nipple meaning no blowback. Gone are the days of removing breech plugs and scrubbing tiny parts. This firearm is scientifically engineered to such tight tolerances that there is no fouling blown down the threads during ignition, thus no need to remove and clean it! Simply clean this muzzleloader from the bore as you would any other weapon.

- Custom Stainless Barrel
- Custom McMillan Thumbhole Stock
- Remington 700 Action
- Box of bullets, box of brass, bore shine, patches

To learn more about this fantastic muzzleloader, talk to Dave Watson or Todd Melton about their experience with this firearm. This is the firearm that will let you start applying for muzzleloader draws.

### **MAGNUM RESEARCH, INC. .45/70 BIG FRAME REVOLVER**

MRI's Big Frame Revolver is truly the biggest, finest revolver on the market today. Entirely manufactured in the US, it is designed as a magnum from the ground up. The BFR is all stainless and has a cut rifled 10" barrel that delivers unmatched accuracy with lead or jacketed bullets. The BFR is the most powerful production single action revolver made you can take everything from grouse to grizzly. BFR .45/70 recoils less than the .44 Magnum with a 4 5/8-inch barrel. The advantages of the .45/70 over the .454 Casull are that the .45/70 is an extremely potent hunting cartridge that is loaded at EXTREMELY low pressures. The Casull is loaded at over 50,000 PSI, and the .45/70 is loaded under 25,000 PSI. The .45/70 can be hand-loaded to exceed .454 Casull velocity and still be under 30,000 PSI! There is much less recoil and half the working pressure which means the revolver will shoot better and last longer. Ammo is also a lot less expensive and more readily available. The long .45/70 cartridge does not mean more recoil—it means far less pressure because the powder has room to expand, giving equal performance with less pressure.

### **NEW MEXICO HUNTER'S CHOICE: Aoudad or Bezoar Ibex**

WHO: Kiowa Hunting Services

WHAT: Aoudad or Bezoar Ibex Hunt

WHERE: New Mexico

WHEN: Must be taken by 2018

TERMS: Hunter has his choice of a four day spot and stalk Aoudad (Barbary Sheep) hunt or four day Persian (Bezoar) Ibex hunt. The draw is about 90% for the Aoudad, but is much

tougher for the Ibex. You are smart to apply for tags for both animals as this hunt must be completed by 2018. For the Aoudad the hunt is typically during February. You will hunt 2x1 for four consecutive days that includes a weekend. You may upgrade to 1x1 for \$500. This is for free ranging Aoudad. You will leave the parked vehicle each morning and begin your hike/stalk that will not return you to the vehicle until dark. The hunt takes place near Roswell, NM. The hunter is responsible for his motel, meals, personal gear, and licenses (currently \$380 plus a habitat management stamp). The ibex is typically called "Persian" in NM, and "Bezoar" in its native habitat of Iran. A 40" billy is quite a trophy, but above 48" is world class. The largest Bezoar ibex ever recorded came from this area, and the genes are still there! The four day ibex hunt during the 14 day season occurs in the Florida Mountains which are primarily BLM and state owned land. The terrain is rugged and can involve a lot of hiking. However, hunters with reduced walking ability can still hunt the area successfully, but will do more glassing before beginning their stalk. You should make your motel reservations in Deming, NM for your ibex hunt. For both hunts you should bring a comfortable day pack to carry water, clothing (light rain gear), and other personal items. The outfitter will provide the guide service, transportation during the hunt, drinks, lunches, snacks, and trophy preparation. An accompanying observer is \$100 per day. Don't miss this fantastic opportunity to take a real trophy with a proven outfitter. We appreciate this repeat 100% donation from Kiowa Hunting Services. Stop by the Kiowa booth and talk with outfitter Tim Barraclough about the details of this fantastic donation and his pronghorn donation.
