## **CUSTOM IN-LINE MUZZLELOADER**

WHO: Ultimate Firearms, Inc.

WHAT: Custom .50 Caliber In-Line Muzzleloader

TERMS: Ultimate Firearms, Inc. makes the BP Express, the world's finest custom muzzleloader. With velocities approaching 2400 feet per second with a 300 grain bullet, the ability to burn up to 200 grains of Pyrodex pellets, and an easy two minute cleanup, this is truly a scientifically engineered, long range muzzleloader that harbors tremendous accuracy and power. This muzzleloader has documented kills on big game in excess of 500 yards. The BP Express has fired five shot groups of one half inch at 100 yards. This rifle has been used with great success on Brown Bears in Alaska to Cape Buffalo in South Africa. It is designed for the discriminating hunter looking to maximize his shooting potential and hunting effectiveness. It has been tested to over 125,000 psi breech pressures. That amount would cause failure in most any other muzzleloader. The rifle has a lugged, locking bolt with two blow ports to prevent primer blowback. Due to the patented ignition system, there are no gasses expelled through the breech plug. This muzzleloader is primed with a unique, patented, .45 caliber brass casing with a magnum rifle primer which is ten times hotter than a .209 primer. No more having to load those tiny caps or .209s, simply lay the .45 casing in the chamber and rack it forward. The casing surrounds the nipple meaning no blowback. Gone are the days of removing breech plugs and scrubbing tiny parts. This firearm is scientifically engineered to such tight tolerances that there is no fouling blown down the threads during ignition, thus no need to remove and clean it! Simply clean this muzzleloader from the bore as you would any other weapon.

- Custom Stainless Barrel
- Custom McMillan Thumbhole Stock
- Remington 700 Action
- Box of bullets, box of brass, bore shine, patches

To learn more about this fantastic muzzleloader, talk to Dave Watson or Todd Melton about their experience with this firearm. This is the firearm that will let you start applying for muzzleloader draws.

Explore the sleepy town with dinner on your own, and lodging provided in one of the quaint local Inns. Monday morning it's off to your own remote island 36 miles off shore on the edge of the continental shelf. On Monday you will fish your way to the island catching the day's dinner in route. For the next 4 nights your home will be on a one acre pristine island with palm trees, hammocks, beautiful stone bungalows and the best diving and fishing to be found anywhere. You may choose the fish every day or dive every day or a combination of both. All are included not to mention the amazing snorkeling right next to your bungalow. With only 5 bungalows, there are

no worries about crowds. The island's guest population is about 10. The food is second to none with fresh seafood that you catch, and local favorites-like barracuda in coconut milk w/fresh lime-WOW is all I can say. You can free dive for Lobsters in the summer, (season opens middle June), along with Conch in season, spearfish for lionfish and catch the various migratory fish always present. Come swim with the Whale sharks from March-June or wild dolphins and pilot whales year round. You can always catch and release giant Sharks -need I say more. Drop deep for the massive swordfish that lurk at incredible depths or catch the huge snappers and groupers that lay on the reef's edges. Troll for tuna that follow the whale sharks, and have your go at the massive amounts of aggressive barracuda that patrol the shallow water flats. Learn to dive from certified Dive masters, or just snorkel in crystal clear shallows. This island paradise trip comes to an end on Friday with your trip back across calm Caribbean waters. **Included in this package:** 5 days 4 nights on the island, 1 day and 1 night in Placencia, airport pick-up, lodging, food, local beers and rum on the island, water and soft beverages, guides & boats, dive and snorkel equipment, air tanks, tackle, and instruction by Dive masters. **Not included:** Airfare to Placencia, meals in Placencia(1st day), tips to guides and staff. ### **HENDERSHOT'S ED BROWN 1911 KOBRA CARRY .45**

WHO: Hendershot's Sporting Goods

WHAT: Custom Ed Brown 1911 Kobra Carry .45 ACP

In addition to all the "extras" that every Ed Brown handgun carries, the Kobra Carry is truly unique. It is essentially the Kobra modified for personal carry. It's the solution for those who prefer a smaller model 1911, but insist on complete reliability. The slide has been reduced to the minimum possible (4.25") without significantly impairing the legendary reliability of the 5" slide. The frame has been modified with the innovative Ed Brown **Bobtail**® housing which reduces the projecting butt of the mainspring housing without sacrificing the full size frame and magazine capacity. The **Bobtail**® minimizes the print under your jacket when carrying and reduces weight. Officer's frames reduce magazine capacity and limit grip, while keeping the projecting, sharp butt. Slides shorter than 4.25" are notorious for reduced reliability. These problems are eliminated with the Ed Brown Commander **Bobtail**® configuration, which reflects the genius of John Browning with an innovative modern flair. The functional simplicity has yet to be matched. Unique with the Kobra series pistols is the innovative snakeskin treatment. It is a directional pattern, meaning it is smooth to slide your hand up, but bites in for a snug grip the other way where you need it. It's easier on the hands than checkering, and female shooters can't stop bragging about it. Not to mention it just looks cool! The Kobra Carry is an innovative

masterpiece, and a serious tool for those who want something a little different. We are sure you'll be charmed by the Kobra Carry!

The Kobra Carry features the following:

- 4.25" Commander model slide, single stack commander **Bobtail®** frame. The John Browning traditional design innovatively modified for concealed carry, without significantly detracting from reliability or accuracy.
- Weight: approximately 35 ounces with an unloaded magazine inserted.
- Exclusive snakeskin treatment on forestrap, **Bobtail®** housing. A beautiful unique, and snag free gripping surface.
- Optional Gen4 coating for low glare, superior rust protection, and improved wear resistance.
- Matte finished slide for low glare, with snakeskin on rear of slide only.
- Fixed dovetail 3-dot night sights with high visibility white outlines.

You get only the best from Hendershots Sporting Goods. We appreciate this great donation from Lance Hendershot.
