## **LA-28 LIMITED EDITION “THE LAST GLADIATORS”—FIGHTING BULL ELEPHANTS**

This limited edition (#62/125) battling bull elephant print is titled “The Last Gladiators,” and is signed and numbered by the artist. It is printed on giclee canvas, measures 24”x36”, and has been professionally stretched, and beautifully matted and framed. This exquisite piece of art was inspired by SCI’s 2009 Conservation Artist of the Year, Brian Jarvi, while doing field research in Samburu (northern Kenya). He witnessed two battling elephants and observed that the fight for dominance was elevated to its highest when the two bulls faced off on a test of wills...and secured their position as The Last Gladiators.

Internationally recognized artist Brian Jarvi, creates up close and personal compositions from his “on the ground” field research in Africa. By combining intricate detail, dramatic lighting, and anatomical accuracy, Brian creates masterpieces. "The excitement lies in transferring situations I have witnessed onto canvas," says Jarvi. "When choosing the themes and subjects of my paintings, I like to draw on personal experience. The tremendous diversity, the sheer numbers, and often-sobering confrontations of the wildlife have spawned more ideas than I can ever hope to create on canvas." A Minnesota resident most of his life, Jarvi is the first artist to win both the Minnesota Duck and Pheasant contests in consecutive years, and only the second artist in history to win both of Minnesota's major print contests. Jarvi has been an exhibitor and supporter of SCI since 1992.
